

The Surgeons List v2.2

Please note.

This is just a list of surgeons who operate on transsexuals throughout the world for various operations. I do not know them personally, and make no recommendations as to their worth. They are just people who I've learnt a bit about over the years, and who may be able to help you.

Any addresses, phone numbers and prices are subject to change (what a surprise!), and reference should be taken of the most up-to-date version of this list. (Go by the version number and the Copyright Date).
